Profile

21-year-old male, actively seeking opportunities in Web Development. My objective is to secure a position in companies or organisations where I can apply and enhance my proficiency in web development, tackling challenging problems through the utilisation of my current skill set. I embrace new opportunities, constantly exploring innovative methods to enhance my efficiency. Committed to continuous improvement, I engage in personal projects during my free time and diligently undertake online courses. I am eager to contribute my skills and dedication to a forward-thinking team.

Skills & Qualities

- Software Languages and Programmes(Familiar with): Git, HTML/CSS, JavaScript
- Microsoft: Word, Excel, PowerPoint
- Patient and Thorough
- Independent
- Self-Motivated

Experience

Personal Projects:

- At the Website link at the [top](#) of the page, you can view all my projects I have and are currently working on.
- Most notable projects are:
 - The Portfolio Website itself
 - Chess Webapp
 - Wordle Webapp
- These primarily consist of Html/CSS and javaScript projects as of August 2024, but currently working towards other languages and tools, such as: php, react, node.js, .net etc...

- A Level Mathematics	A*
- A Level Further Mathematics	A
- A Level Computer Science	A
- A Level Physics	B

University Of Warwick

-2.2 BSc (with Honours) General Engineering

Hobbies and Interest

Videogames

In my downtime, I play competitive games such as League of Legends and Apex Legends. I have spent countless hours improving myself in either game to achieve the top 1%. Even after achieving my goals, I continuously refine my skills that have spilled over into my work ethics.

Piano

I have been self-taught for 6-7 years. I started learning due to my interest in anime/gaming. It is quite rewarding to see the progress and expressions of others towards the music I play.
